

ESHAN CHATURVEDI

Full-Stack Developer & UI/UX Designer

+91 8126171813 | hi@eshxn.com | linkedin.com/in/eshxn | eshxn.com
github.com/EthanC-8 | Pune, Maharashtra

SUMMARY

Full-Stack Developer and UI/UX Designer with 7+ years shipping 350+ projects for 300+ clients across gaming, e-commerce, automotive, travel, and SaaS. Builds end to end: UI/UX design, frontend development, backend engineering, DevOps, and server infrastructure. Started as a UI/UX designer with a sharp eye for what users are most comfortable with, pixel-perfect interfaces and platform UX that just works. Experienced in web-app based React Native mobile apps and Progressive Web Apps (PWAs). Ships production-ready projects from scratch using AI-assisted development tools including Claude Code and Codex.

EXPERIENCE

Freelance Full-Stack Developer & Designer

09/2018 - Present

Eshxn (eshxn.com)

Full-stack development, UI/UX design, DevOps, and AI-assisted project delivery

- Shipped 350+ projects for 300+ clients across gaming, e-commerce, automotive, travel, finance, hosting, and SaaS
- Engineered full platforms from scratch: booking systems, membership portals, SaaS dashboards, marketplaces, and real-time web apps
- Deployed and managed Linux servers, cloud infrastructure, DNS, SSL, and CI/CD pipelines for 200+ websites
- Built and operated game hosting infrastructure using Pterodactyl, WHMCS, and Virtualizor across multiple regions
- Designed UI/UX in Figma and developed pixel-perfect responsive frontends with React, Next.js, and Tailwind CSS
- Integrated Claude and GPT APIs into production systems for analytics, automation, and content generation
- Architected and shipped full projects from scratch using Claude Code and Codex
- Collaborated with remote teams via GitHub: code reviews, branching workflows, and CI/CD pipelines

Full Stack Developer & Technical Lead

2024 - Present

MACHINA / Motoverse (motomachina.com)

Premium motorcycle accessories brand for adventure and touring riders, Pune, India

- Architected and built a fully custom Shopify theme from scratch with premium brand identity
- Developed a Bill Management SaaS panel in PHP tracking staff, sales, inventory, P&L, reports, and purchase orders
- Created an AI-Powered Command Center (Laravel Filament) for sales analytics and Meta Ads automation
- Built multi-agent AI pipelines for ad performance analysis, campaign optimization, and automated reporting
- Set up cron-based automation for scheduled reports, data syncing, and AI-driven task pipelines

Full Stack Web Developer

06/2020 - Present

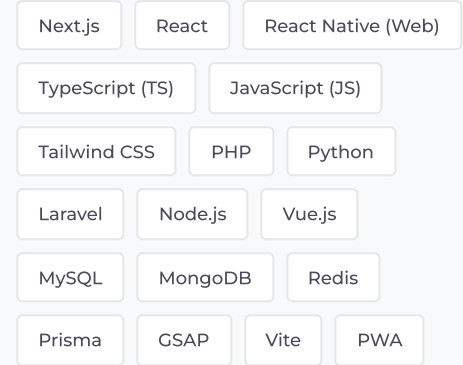

Revamped (revamped.com.au)

Melbourne-based digital agency focused on paid communities, subscription platforms, and NFT projects

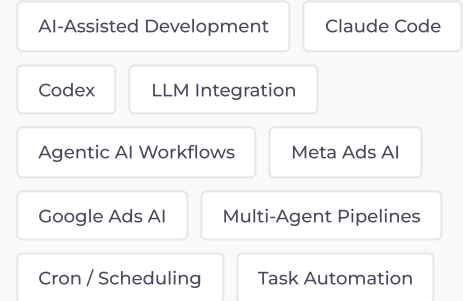

- Built two fully custom Ghost.io themes from scratch for the agency
- Created Group Agency, a Discord OAuth subscription platform with automated member management, role assignments, and Stripe/Whop payments

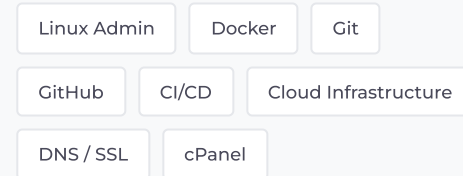

TECHNICAL SKILLS

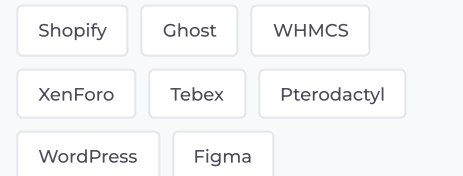

AI & AUTOMATION

DEVOPS & INFRASTRUCTURE

PLATFORMS & TOOLS

NOTABLE PROJECTS

Hytale Global - Game Server Listing Platform

Next.js 15, TypeScript, Tailwind CSS, Prisma, TanStack Query

Full-featured server listing platform with Discord OAuth, RSA-encrypted Votifier voting, real-time server tracking via custom plugin, AI-powered auto-listing, boost and sponsorship systems, admin analytics dashboard (Recharts), blog system, and dynamic SEO with JSON-LD schemas. Deployed on Vercel with TiDB Cloud.

MoneySkins - P2P Steam Marketplace

React 19, Vite, Tailwind v4, FastAPI (Python), Redis, Steam OAuth

Peer-to-peer Steam item trading platform with real-time trade monitoring, Redis-backed inventory caching, Stripe payments with KYC verification, and a custom Chrome extension for auto-selecting trade items. Full Tailwind v4 redesign with security hardening, performance optimization, and rate limiting.

ElixirNode - Game Server & Cloud Hosting

PHP, WHMCS, Pterodactyl (Docker), Virtualizer

Built the entire hosting company from scratch: website, custom WHMCS billing themes, Pterodactyl game server panel themes (Docker-based SaaS for containerized server management), and Virtualizer VPS dashboards. Managed multi-region server infrastructure and DevOps.

The Global Paradise - Gaming Community

PHP, XenForo, JavaScript

Custom website, XenForo forums, SteamRep verification tool, e-commerce store, and peer-to-peer trading platform for a 10,000+ member gaming community. Led dev teams as Senior Web Admin.

SteamRepChecker - Reputation Tracking Tool

PHP, MySQL, Steam API, Cron Jobs

Steam reputation and inventory tracking platform with long-term user data storage, automated cron-based inventory snapshots, historical data sorting, and Steam OAuth login. Built for large-scale data management across thousands of tracked users.

Group Agency - Subscription Platform

PHP, Discord OAuth, Stripe, Whop

Discord-based subscription platform managing servers, bots, and roles. Automated member syncing, role assignments, and payment integration across multiple betting and finance communities.

MACHINA - Bill Management SaaS

PHP, Laravel Filament, Claude API, Meta Ads API

Custom billing and business management panel tracking staff, sales, inventory, P&L, reports, and purchase orders. Includes an AI-powered Command Center for sales analytics, Meta Ads automation, multi-agent pipelines, and cron-scheduled reporting.

TaskIt - Person-to-Person Job Portal

Next.js 16, React 19, Tailwind v4, Prisma, Zustand, PWA

Mobile-first PWA marketplace similar to Airtasker. Two-sided bidding system, escrow payments with OTP verification, real-time messaging, review and reputation system, wallet management, and 16 task categories. Installable on iOS/Android with offline support.

EDUCATION

Diploma: Computer Science

Dev Bhoomi Group of Institutions

📅 08/2018 - 05/2021 📍 Dehradun

ACHIEVEMENTS

350+ Projects Shipped

Full-stack builds across 10+ industries for 300+ clients worldwide.

AI-Powered Development

Ships full projects from scratch using Claude Code, Codex, and agentic AI workflows.

SaaS & AI Analytics

Built business management systems with AI-powered reporting, Meta Ads automation, and multi-agent pipelines.

DevOps & Infrastructure

Linux servers, cloud droplets, game hosting companies, DNS/SSL, CI/CD pipelines.

Payments & Auth

Stripe, PayPal, crypto gateways, Discord/Google/Apple OAuth, Whop integration.
